PROFESSIONAL SUMMARY

As a Computer Science student skilled in HTML, CSS, Java and SQL with hands-on project experience. Strong problem-solving and teamwork skills. Looking to start my career in an organization where I can contribute, learn and grow as a software professional.

PROJECTS

Quiz Application (Java)

- Developed a dynamic web-based quiz application.
- Implemented features like user authentication, quiz management, and score tracking.

Search-to-Search (Java Web Application)

- Built a web app using Java and MySQL.
- Designed UI using HTML, CSS, Bootstrap.

Firefighting Robot using Arduino

- Developed an autonomous robot using flame sensors and Arduino for fire detection.
- Implemented real-time sensor-based motor control logic.

Smart Irrigation Scheduler Using Renewable Energy Load Forecast

- Designed an automated system to optimize water usage based on energy availability.
- Improved efficiency using energy load forecasting techniques.

SKILLS

Technical Skills: HTML, CSS, Java, SQL, JavaScript, Web Development

Tools: Tableau, Eclipse IDE, VS Code

Operating Systems: Windows

Soft Skills: Team collaboration, Adaptability, Communication Skills, Organising Skills.

EDUCATION

B.Tech in Computer Science Engineering

Anurag University

2023 – 2026

CGPA: 7.65

Diploma in Electronics Communication Engineering

Samskruthi College of Engineering and Technology

2020 – 2023

CGPA: 7.71

Board of Education

Spring's Public High School

2020

CGPA: 9.3

ACHIEVEMENTS & CERTIFICATIONS

- Participated in TechXcelerate 24-Hour Hackathon Feb 2025
- Served as an organizer for Daksha event, coordinating event activities March 2025
